PRAYER TO CARRY TODAY

NOT WORKING ALONE

By the middle of the day, the will to keep going can wear thin. Maybe it's patience with a colleague, or one more hour on work nobody will notice, or a decision you know is right but don't want to make. You know what's good. The wanting has just run out.

Paul tells the Philippians to keep working out their salvation, and then he tells them why they can: "it is God who works in you both to will and to work for his good pleasure" (Philippians 2:13). The wanting and the doing are both His gift. You're not pushing alone. His hand is on the work with yours, and He finishes what He starts.

Pick the next small task in front of you. Do it slowly and well, and as you start, ask Him to work through your hands.

A PRAYER FOR TODAY

Lord, my hands are tired and I don't want to keep going. Put Your hand over mine on the next piece of work, and let it get done.
