# WALKING OUT IN HIS LIGHT

You're heading into a day you can't see the end of. Maybe the calendar is packed, maybe it's empty and that feels worse. Either way, most of today is still in the dark.

Psalm 89:15 says the people who know God walk in the light of His presence. The Hebrew says His face: the One who made the heavens has turned toward you, and His light falls on the road in front of you. The word for acclaim is the shout a crowd raises when its king comes into the city. The people who learn that shout are the ones who walk in His light. Praise isn't the reward for a good day. It's how you walk into one.

Before you get where you're going today, say or sing one line of praise to Him, out loud if you can, under your breath if you can't. Then take the next step in His light.
